Aug 2021 – Dec 2023

## PROJECTS

### Full Stack React Application | <https://paw-plan.netlify.app/> | *SQLite, Express, React JS, HTML/CSS, JavaScript*

- Developed a Dog Planner web app on a team enabling users to manage pet care schedules, with features for customizable reminders (walks, meals, vet appointments) and personalized dog profiles, aimed at simplifying pet management for busy owners
- Developed and integrated user authentication and pet registration features using SQLite, Express, and React, enhancing functionality and user experience through extensive testing and front-end to back-end linkage

### Personal Portfolio Website | <https://nevinramjitsingh.netlify.app/> | *HTML, CSS, JavaScript*

- Developed a personal portfolio website to showcase my academic and professional achievements, including detailed sections on about, experience, and projects.
- Implemented responsive web design with HTML, CSS, and JavaScript, featuring a hamburger menu for optimal mobile navigation and interactive content sections for enhanced user engagement.
